SUMMARY

DevOps engineer with 8 years of experience running cloud-native platforms.

SKILLS

k8s, Docker, GH Actions, Terraform, Postgres, Amazon Web Services, Linux, Bash, Prometheus, Grafana, Ansible

EXPERIENCE

Senior DevOps Engineer - Stratus Cloud | Feb 2021 - Present

- Operated production k8s clusters, managing 120 microservices.

- Built GH Actions pipelines for CI/CD, cutting release time from 2 hours to 15 minutes.

- Provisioned infrastructure with Terraform and monitored it with Prometheus and Grafana dashboards.

- Tuned Postgres performance and automated backups.

DevOps Engineer - Nimbus Tech | Aug 2018 - Jan 2021

- Managed Amazon Web Services infrastructure (EC2, S3) with Ansible playbooks.

EDUCATION

B.Tech in Electronics, NIT Calicut, 2014 - 2018
